THE REAL REASON

4 REASONS A CLEAN FILE STILL SCORES LOW

1 LITTLE POSITIVE HISTORY

Removing negatives leaves a gap. Only years of on-time payments can fill it.

SIGN: FEW ACCOUNTS WITH A LONG ON-TIME RECORD

2 HIGH UTILIZATION

Low limits make even normal spending look risky to the scoring model.

SIGN: LIMITS UNDER $1,000 OR BALANCES OVER 30%

3 YOUNG CREDIT AGE

Deleted accounts can take years of age with them, dropping your average.

SIGN: AVERAGE ACCOUNT AGE UNDER 2 TO 3 YEARS

4 THIN FILE

Too few open accounts for lenders and scoring models to judge you with confidence.

SIGN: FEWER THAN 3 OPEN ACCOUNTS REPORTING

80%

OF YOUR FICO® SCORE

THE FIX: SEASONED TRADELINES

Payment history, amounts owed, and length of history make up about 80% of a FICO® Score. Those are the exact areas a seasoned authorized user tradeline is built to strengthen: years of on-time payments, a high limit with a low balance, and an older account added to your report.

CHECK YOURS Have 2 or more of these? That is the most common pattern we see after restoration, and **it is exactly what our post-repair review is built to catch.**

HOW IT WORKS

BORROW THE HISTORY YOU ARE MISSING

With an **authorized user tradeline**, you are added to an established credit card with a long, clean record. That account's age, limit, and payment history can then appear on your report.

STEP 01
WE MATCH IT
We review your file and choose a seasoned card with the age and limit your profile needs.

→

STEP 02
YOU ARE ADDED
You are added as an authorized user. You never receive the card or access the account.

→

STEP 03
IT REPORTS
After the card's next statement date, it can appear on your credit reports.

WHAT IT CAN STRENGTHEN

Positive history — REASON 1
Years of on-time payments

Utilization — REASON 2
A high limit with a low balance

Credit age — REASON 3
An older account raises your average

File depth — REASON 4
Another positive account reporting

WHAT TO KNOW

Results vary by file
No specific score increase is guaranteed.

Timing follows the statement date
Posting can take several weeks.

Some lenders look closer
Mortgage underwriting may set aside authorized user accounts.
